## Course Description

FRIDAY, FEBRUARY 3, 2012 - 9:00 AM - 4:00 PM

### Evaluating and Designing an Occlusion

When it comes to occlusion, every patient “wears” their complete history. Their teeth will tell you what they do if you can read the story. This course will teach you that language. It will offer ideas to treat the occlusion, to work with the occlusion, and to create an occlusion when it’s necessary to change everything.

Learn:

- Wear patterns and the story they tell
- Diagnosing Joints, Muscles & Teeth
- Using Appliance Therapy
- When equilibration is necessary and when it is not
- The references available to begin occlusal evaluation and treatment
- Treatment planning complete occlusion designs

Mandatory Continuing Education Credits: 7
