Dear Doctor:

I have been employed as a Dental Hygienist for sixteen years. I started as a Certified Dental Assistant, and returned to school to become a Hygienist. Between Hygiene and Assisting I have extensive experience in dentistry. I have worked in both clinical and private practice settings. I have Medicaid experience and have worked with handicapped patients

I was a substitute at the New Hartford BOCES for the Dental Assisting Program. I am a current member of Phi Beta Kappa.

I am very dependable; organized, and efficient with time management. I feel that I am a team player

I am available for both substitution and long term employment. I can also provide additional verbal references.

Please feel free to contact me at your convenience.

Sincerely,

Cathleen E. Varno
